

How to Draw a Lion

1. Draw a capital "U" with a straight line across top.

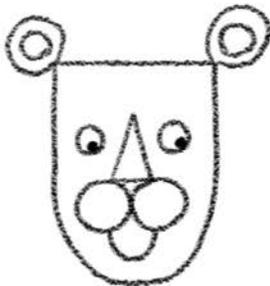

2. Draw two circles in the "U" like shown.

3. Draw a line connecting the tops of the circles to make a nose and draw a "u" to make the chin.

4. Add a triangle above the nose and add two circles for eyes.

5. Add circles for ears and add dots to the eyes. Stop here for a lioness (girl Lion)

6. To make a boy lion, add a furry mane around his head.
