

Wash, Wash, Wash Your Hands

Wash, wash, wash your hands,
several times a day.

Scrub the fronts and scrub the backs,
to wash the germs away.

Wash, wash, wash your hands,
it's easy if you try.

Soap and water's all you need,
to kiss the dirt good-bye.

Wash, wash, wash with care
between your fingers too.

Lather up and do not stop
until this song is through.

Scrub, scrub, scrub your hands,
until they're foamy white.

Then rinse the suds and you're
all done.
Your hands are clean and bright!
